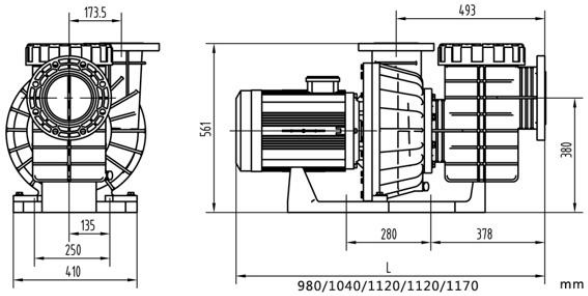
DELMONT
POOL EQUIPMENT

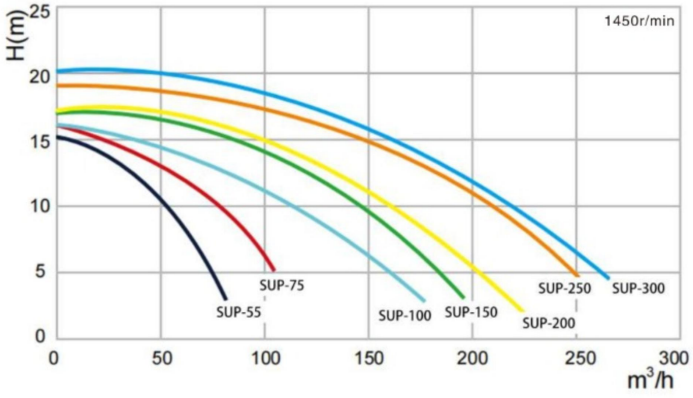
MARINA POOL

SUPREME SERIES
COMMERCIAL SELF-PRIMING POOL PUMP

Delmont SUPREME pump is built to be efficient, durable and reliable. It adopts the bionic turbo pump body design, maximizing the conversion of motor efficiency to deliver massive and smooth flow. Thickening body and spiral lock design, excellent bearing pressure performance, sturdy and durable made of Glass Fiber Reinforced Polypropylene (GFRPP). Using four-pole motor, RPM 1450, NSK imported bearing, carborundum & graphite mechanical seal, creating a stable and quiet motor. IP55 protection grade, F insulation grade, rainproof standard resist corrosion, flange type inlet & outlet for easy installation and maintenance. Shaft is stainless steel 316L and the motor is using Copper coil and the housing is of Aluminium Alloy. Suitable for large waterparks and large swimming pools.

- Designed for high performance and long wearing application with anti-rust body
- Less power use, high head, high flow
- Safe and durable high reinforced plastic body
- Large basket strainer to load much more dirt before cleaning





CODE	DESCRIPTION	INLET (mm)	OUTLET (mm)	MAX FLOW RATE (m³/h)	RPM	HEAD (m)	FLOW RATE (m³/h)	8H VOL (m³/h)
