

WIN SERIES SWIMMING POOL PUMP

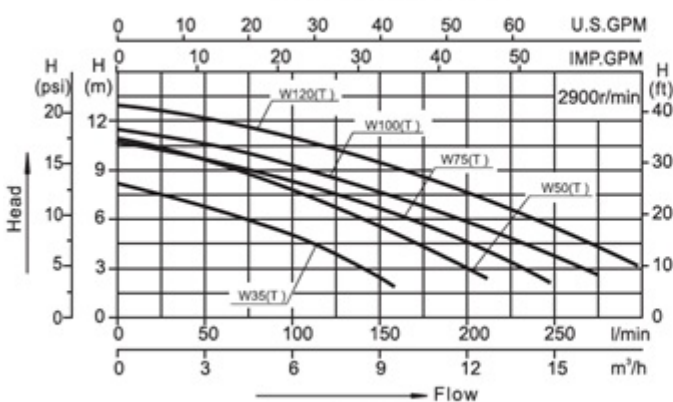

Delmont Win Series pumps are built to be efficient, durable, and reliable. The pump is made of high reinforced engineering plastic, which is used for different types of swimming pools, industrial water, aquarium, water park, massage pool, etc. It includes a pre-filter with a strainer to prevent the entry of any foreign objects which could cause damage to the hydraulic parts of the pump, with a see-through lid for easy inspection. The centrifugal hydraulic design moves water more efficiently and quieter than any other pump in its category.

- Made of high reinforced engineering plastic
- Easy to maintain, clean and use
- 0.8L basket strainer and see-through lid

WIN SERIES 0.35 HP - 1 HP
